

QUARTERLY UPDATE

Dar Al Zahra celebrates the birth anniversary of Imam Ali Ibn Talib (AS)

GKF Hosts Annual Medical Camp

The Global Kindness Foundation continued their noble tradition of providing world-class healthcare to students in need. 836 students were screened on campus and 70% received dental or optical treatment. 313 students screened earned medals for being confirmed cavity-free and 105 students were provided with eyeglasses to correct their vision.

Awards for Best Teachers and Students

25 top teachers earned recognition from school management for their knowledge and dedication to the growth and success of their pupils. The school also awarded students who scored over 70% on their exams.

New Football Field Inaugurated

The Board of Trustees alongside special guest Br Ali Fadhel launched the new outdoor football ground. The new field provides a better playing surface and will be used for sports lessons and football matches.

Medical Intervention Vital for Student Success

Oral disease is a major public health concern, particularly in war-torn regions like Iraq. When left untreated, it can severely affect the quality of a child's life. The pain and discomfort from an unhealthy tooth can compromise student concentration and participation in the classroom.

Uncorrected vision has similar effects on the quality of life of a student. Access to treatment to restore vision improves the lifestyle of a child and leads to improvement in academic performance. The students, teachers, parents, staff, and the Board of Trustees at Dar Al Zahra offer their sincere appreciation and gratitude to the entire team of medical professionals from Canada and other parts of the world for their devotion to improving the lives of disadvantaged children and youth around the world.
